

2008 Annual Price Averages Special Report CORRECTION

The two structural panel production pie charts in the 2008 Annual Price Averages Special Report, page 3, contained errors. Canadian OSB output proportions were transposed: 2004 should have read 26%, 2008 should have read 18%. Because of rounding, the U.S. OSB proportion in 2004 then should have read 34%.

The two corrected graphs appear at the bottom on the right.

To see updated charts on the Random Lengths Web site, go to www.rlpi.com, select In Depth, then select Yardstick. For a copy by fax or mail, call Random Lengths at (888) 686-9925.
